Assistant Superintendent Report - Dr. Stoker reported on the High School’s designation of early warning status of Targeted Support and Intervention for the special education population in regards to attendance, college and career readiness evidence, and academic achievement in Math and ELA. The team has been working really hard to develop the plan which is on the agenda this evening for approval. Even though the formal plan is being approved, the strategies have been implemented since the fall and have the feedback from the TSI committee, Curriculum Council, and Education/Policy committee. Mrs. Martineau could not be here this evening, but she is part of the TSI committee and she wanted to extend her gratitude to Dr. Stoker, Mr. Vlasaty, Mrs. Dotta, Mr. Hauser, and the rest of the TSI committee for their hard work and dedication to the task, and all in a very tight timeframe. She considers herself fortunate to be able to roll up her sleeves and pitch in with such a fine group of educators. Dr. Stoker echoed those sentiments.
SPECIAL BOARD REPORTS

Dr. Stoker reported that the Wellness Committee met last Monday during the Education/Policy Committee meeting. This is mandated annually as well as reviewing the wellness policy.

Superintendent’s Report - Mr. Link reported that there are no confirmed or suspected cases of the coronavirus within the district from students or staff and as of today, we have no knowledge of our students and staff having been exposed to the virus. We continue to follow the guidance from the PA Department of Health and CDC, much of which you are seeing in the media. These guidelines include: avoid close contact with people who are sick; avoid touching your eyes, nose and mouth; stay home when you are sick; cover your cough or sneeze with a tissue; clean and disinfect frequently touched objects and surfaces; and follow the CDC guidelines for using a facemask. The CDC does not recommend that people who are well wear a facemask but should be worn for people who show signs of the disease to help prevent the spread of the disease to others. Wash your hands with soap and water often for 20 seconds, especially after going to the bathroom, before eating, blowing your nose, or sneezing. If soap and water is not readily available, use alcohol based hand sanitizer with at least 60% alcohol. At Northern Lehigh, we have increased the cleaning of high touch areas throughout the district; we have posted literature around the buildings on how to prevent the spread of the virus and germs in general; we have installed additional hand cleaning stations in each building; the Technology department disinfects desktop keyboards daily, and administratively and with the school nurses, have reviewed and updated our pandemic illness response protocol checklist. We monitor this daily and Mr. Link speaks almost daily with area superintendents to discuss guidance by PDE and the CDC.

Mr. Link reported that the next board meeting will be on Tuesday, April 14, 2020.

Mr. Fedorchka reported that an executive session was held prior to tonight’s meeting to discuss personnel issues.
