The regular meeting of the Northern Lehigh Board of School Directors was called to order virtually, via Google Meet, by the President, Mr. Gary S. Fedorcha, at 7:30 p.m. on Monday, August 10, 2020.

Members present: Mr. Robin T. Distler, Mr. Mathias J. Green, Jr., Mrs. Michelle M. Heckman, Mrs. Gale N. Husack, Mr. Robert J. Keegan, Jr., Mr. Robert J. Kern, Jr., Mrs. Donna M. Kulp, Mrs. Michele L Martineau, and Mr. Gary S. Fedorcha (9)

Members absent: (0)

Non-members present: Mrs. Susan Bahnick, Mrs. Jill Chamberlain, Mr. Greg Derr, Mrs. Michele Dotta, Mrs. Rhonda Frantz, Mr. Bryan Geist, Mr. David Hauser, Mr. Eric Hill, Mr. Matthew Link, Mrs. Sherri Molitoris, Mr. Scott Pyne, Mr. James Schnyderite, Dr. Tania Stoker, Attorney Keith Strohl (Solicitor’s Office), and Mr. Robert Vlasaty.

Approximately one thousand seven hundred visitors viewed the meeting.

Mrs. Kulp made a motion, which was seconded by Mrs. Martineau, that the minutes of the special school board meeting held on July 20, 2020, be approved and ordered filed.

Roll call.

YEA: Mr. Distler, Mr. Green, Mrs. Heckman, Mrs. Husack, Mr. Keegan, Mr. Kern, Mrs. Kulp, Mrs. Martineau, and Mr. Fedorcha (9)

NAY: None (0)

Motion carried.

Carbon Lehigh Intermediate Unit - Mrs. Husack reported that there was a meeting in July; however, due to our special meeting in July, she was unable to attend. The IU is working on their health and safety plan and reopening plan and they are scheduled to open on time.

Lehigh Career and Technical Institute - Mr. Fedorcha reported that there was no meeting in July. At the last meeting in June, the board adopted an opening of school plan which is posted on the website. This plan mirrors the districts that are doing hybrid.

Committee Reports and/or Meetings

Minutes of the Education/Policy Committee Meeting held on August 3, 2020, were distributed.

Minutes of the Extra and Co-Curricular Committee Meeting held on August 3, 2020 were distributed.

Minutes of the Technology/Buildings & Grounds Committee Meeting held on August 5, 2020, were distributed.

Minutes of the Finance Committee Meeting held on August 5, 2020, were distributed.

Solicitor’s Report – Attorney Strohl reported that the legislature passed Act 73 which updated the school code pertaining to sudden cardiac arrest and electrocardiogram testing. PDE will be creating training and equipment guidelines that they will provide to the schools. Districts will be required to provide student athletes a packet which will include a form that each athlete will sign off yearly acknowledging receipt of information on sudden cardiac arrest. Coaches will be required to be trained annually. Any athlete who exhibits signs or symptoms of sudden cardiac arrest shall be removed from that activity immediately until cleared by a physician. Any athlete exhibiting symptoms between activities will also need to be cleared by a physician before returning to that activity. This act will be in effect beginning September 12, 2020.
Assistant Superintendent - Dr. Stoker reported that in preparation for this school year, whether it be in person, hybrid, or virtual, our teachers have been offered professional development this summer. Some of the sessions available include: TPAK (Technological Pedagogical Content Knowledge), Google Classroom sessions, best practices for student engagement, and Nearpod which makes lessons interactive.

Dr. Stoker announced that the PCCD COVID and ESSER grants are underway. The PCCD COVID grant was for $182,692 and is being used for PPE gear for the district. The money has to be spent by October. The ESSER grant was $324,576 which is being utilized mainly for technology.

Superintendent's Report – Mr. Link announced that after much reflection, he is recommending a change to our previously approved Health & Safety Plan for the reopening of schools. Mr. Link firmly recommends we transition to a hybrid model, or what the state refers to as a blended model. This decision is based on reaching the safest environment for the number of people in a school building at one time. Based on feedback from the community, survey results, feedback from the teachers’ association, the only way to open schools as safely as possible is to implement the hybrid model. This is the recommendation of administration as well. This model has the full support of the teachers’ association and we thank them for their support, cooperation, patience, and their assistance solving many of the problems that appear on a daily basis. The hybrid schedule proposed will include Group A which will consist of students with the last name of A-L attending in person on Mondays and Tuesdays; Group B which will consist of students with the last name of M-Z, will remote learn on Mondays and Tuesdays and attend in person on Thursdays and Fridays while Group A remote learns. On Wednesdays, all students will be learning remotely. Staff will report every day. Additional cleaning and disinfecting will be done on Wednesdays. Today, PDE put out guidance on how school districts should determine which model they implement to start the school year. PDE guidance recommends using a level of community transmission by county broken down by incident rate per 100,000 residents for the most recent seven days, or the percent of positivity of cases for the most recent seven days. A low level of transmission is less than 10 incident rates per 100,000 residents or less than 5% positivity. Moderate levels are 10-99 incident rates per 100,000 residents or 5-10% positivity rate. Substantial levels are greater than 100 incident rates per 100,000 or greater than 10% positivity rate. Both Lehigh and Northampton counties are in the moderate level. Lehigh County is at 28.3 cases per 100,000 residents and Northampton County is at 27.9 cases per 100,000 residents. PDE is now recommending the hybrid model under these circumstances, and we are recommending the same for the Northern Lehigh School District. PDE defines the hybrid learning model as any model in which the number of students in a school building is reduced to allow for social distancing of six feet. This may be accomplished in several ways including split schedules, schedules that rotate, by day or week, or similar approaches. Blended learning also includes scaffolded approaches that treat grade levels in a different manner. Mr. Link recommends committing to the hybrid model for the entire first marking period which ends on November 4, 2020. It is also recommended that we allow for flexibility for our students with special needs and allow them to attend four days a week. Accommodations will be made for families with different last names of children in the same household by working with the principals directly to select which group is best for the children in that household.

Mrs. Heckman asked Mr. Link to explain a little bit more in depth how the teachers will handle the continuity of education when Group A is in school and Group B is at home. Also, will the students have the same teacher for the week and how will that in-person/online integration be handled. Mr. Link answered that teachers will have students in the classroom in front of them four days per week and with the hybrid model, which means fewer students, we are confident that we can obtain six foot social distancing. This model also allows for fewer students riding the bus. While students are at home, they will participate in synchronous, and asynchronous learning meaning that some things will be done independently, but every student will be able to contact a teacher or support staff member, live while they are at home on Wednesdays and the two days they are learning online. We heard that when students are at home, there needs to be more contact with our employees. This does not mean that teachers will be live streaming lessons seven hours a day while students are at home; however, students will have access to our teachers and support staff.

Mr. Fedorcha asked if we will continue with the hybrid model for one marking period if there is no change from the state or the virus itself. Mr. Link answered that if a school district is split into two counties, the recommendation from PDE and the Department of Health, is to side with the county that
Mrs. Martineau questioned if the hybrid model is adopted, will there be an option for parents that want to do full online learning, but not Bulldog Academy. Mr. Link responded that we are not looking to remove Bulldog Academy; however, to be clear Bulldog Academy is going to be more asynchronous work with less contact with third party teachers. If a family is comfortable with Bulldog Academy, they should know there will be minimal contact with NLSD teaching staff. We are looking into having a teacher at the elementary level five days a week dedicated to online learning. At the middle school, there will be times throughout the day teachers on a team will be available. At the high school level, there is operations time built into the schedule.

Mr. Keegan questioned whether there will be any live streaming with a student sitting at home receiving the same instruction as in person students. Mr. Link answered that would more likely happen at the elementary level where we are looking at having a dedicated teacher available online. As we progress up through the grades, it is less likely that we are streaming live from the classroom with students present. Support staff will be available when students are in a remote session. Mr. Keegan stated what prompted his question was that there are parents who do not want their children on camera, and there may be special needs students in a classroom. As an organization, we could have designated seating if that were to occur. Mr. Link answered yes, we are currently working through those scenarios on how a camera could be arranged in a classroom and what can be done to protect confidentiality of students in the classroom. Legal opinion is that it is really no different than having a visitor walking through the school and seeing children in classrooms; however, we are sensitive to the fact that it is live streamed and we are trying to mitigate any of those concerns.

Mr. Kern questioned how our schedule coordinates with LCTI. Mr. Link answered that our high school students' schedules will mirror LCTI's schedule. They will also allow four in person days for students with special needs.

Mrs. Martineau stated that she was not sure she heard the answer to her question. If a parent chooses to have five days of online learning, would they be able to do so with Northern Lehigh teachers? Mr. Link answered that they are working on that now but it is easier to implement that at the elementary levels. At the middle school and high school level, it would not be live instruction each day. Much of the work would be done independently, but there would be opportunities through those teachers' team times and operations times to reach out to students and answer questions. The expectation from administration is that teachers need to be more available on a daily basis for students that want to participate in online learning. Mr. Link added that he recognizes that this is a change from when we recommended five days of in class instruction, but we have also listened to a lot of the feedback from the community and the guidance from the Departments of Education and Health. We have also been looking at what has occurred in other states that had five day in person instruction and how quickly they had to shut down. This is not easy and we understand that is not easy for families to plan day care within three weeks, but we believe that it is the safest model utilizing guidance that was just issued today.

Mrs. Husack thanked the administration and the board for opening up the discussion. We did listen to the teachers, our community, the administration and the staff. This is not an easy decision for anyone. With the guidance today, we are asking our staff to turn on a dime. Mrs. Husack thanked administration and the teachers for doing that and as we move forward. We can be successful. Mrs. Husack asked what the grading system will be for the fall. Mr. Link answered that we are not looking at doing a pass/fail. Mrs. Husack asked that knowing students learn differently both in the classroom as well as online, how will the students get in touch with those teachers to do a one-on-one, and will those teachers have set times to respond and will they be more available than they were in the spring. Mr. Link responded yes, as recently as today, the conversation was to schedule times either by building level or teacher level, where they would be available for students or even respond to families via our school district email system, or by phone. We are looking at each building using google classroom platform with a few exceptions per subject at the high school level. Teachers may also use...
SPECIAL BOARD REPORTS (cont.)

the Remind app. Mrs. Husack asked if there was a timeline in place if we do move to a different model, whether it be in person or all virtual, to allow parents time to adjust their schedules. Mr. Link answered that he is not going to recommend full online unless the Department of Health states that due to the spread of the virus in this district, we need to shut down. We are being told the Department of Health will be doing the contact tracing and they will be contacting families. The only other time we would shut down is if the governor mandates schools to shut down. If the spread would be considered low for the county, the department of education recommends that you remain in your current model for at least seven (7) days to see if it remains low. Mr. Link stated that ideally he would like to give two to three weeks to make sure it is trending lower.

Mr. Keegan asked if LCTI was going to split their enrollment by alphabet. Mr. Link answered that they are splitting their student body A-L and M-Z. Mr. Link confirmed that our recommended plan is in line with LCTI’s plan.

Mrs. Heckman asked Mr. Link to explain why the board meeting was virtual when we are asking students go into school two days per week. Mr. Link answered that it is part of the governor’s mitigation plan. On the school district website, under the Health and Safety Plan, is a FAQ section. The first question explains that part of the governor’s targeted mitigation order, meetings are limited to no more than 25 people in attendance. Between administration and the school board, we are close to 25 in attendance. Mrs. Heckman stated that is a question she is frequently asked. Mrs. Heckman asked if the school start and end times will be changed. Mr. Link answered at this time, we are not anticipating changing the start or end times. Mr. Link stated that he and the administration realize that information received from the state level is often contradictory and hypocritical. Mrs. Heckman added that she wanted those questions answered so the public could understand where these directives are derived.

Mr. Green stated that he had the pleasure of sitting in the meeting with the teachers association this morning, and their biggest concern and ours was safety. The plan proposed provides the biggest safety opportunity for our staff and students.

Health and Safety Plan
Hybrid Model

Mr. Green made a motion to accept the new Health and Safety Plan proposed model of reopening of schools with students A-L in the buildings Monday and Tuesday, all students virtual on Wednesdays, and students M-Z in the buildings Thursday and Friday. Exceptions will be made for special needs students. This model will remain in effect for the first marking period. Mr. Distler seconded the motion.

Mrs. Heckman asked if students who attend physically on Monday and Tuesday, would not have the same teacher Wednesday-Friday. Mr. Link stated that may be a possibility, but the teacher would be the contact person even in a remote setting. The students that come in on Monday and Tuesday, will not have as much direct access to that teacher on Thursday and Friday. Students will have one teacher, but may receive support from other teachers or support staff.

Mr. Kern asked if Mr. Green’s motion could be changed by either an outside organization or the superintendent to have some leeway without voting on the plan over and over again. Mr. Link answered, yes, it is built into the plan. Authorities higher than us can change the plan, but local decisions can be made without going through this process again.

Mrs. Denise Pioli asked why did we wait 21 days prior to school opening to recommend a hybrid plan, thereby ensuring undo difficulty/stress to working parents. This could have been done weeks ago. Mr. Link answered that recommendations from the state have changed, we listened to feedback from the community, teachers, we observed how other districts and states opened, and we are looking at local rates of infection on a daily basis.

Mr. Hill stated that there were many comments/questions regarding Bulldog Academy and our teachers virtual lessons. Mr. Link stated that Bulldog Academy is asynchronous and there is very little live instruction and does not involve our NLSD teachers. Bulldog Academy is a third party vendor and does not align to all of the NLSD curriculum.

Mr. Kern asked if Y care would be available before or after school. Mr. Link stated that for the children who are in the building for the day, services would continue with Y care.
Mr. Fedorcha asked that board members hold any emailed questions until after the chat questions have been answered. Questions and answers will be added to the FAQ on the website.

Mr. Hill stated that there was a question about getting extra help for reading. Mr. Link stated for specific questions on help, please reach out to the principal of the building. If your child has an IEP, reach out to Mrs. Dotta. We are still looking to support children to the greatest extent possible to meet their needs.

Mr. Hill read a community question: To be clear, if full remote is decided for a family, a virtual teacher will be an option, and bulldog academy enrollment is not required. Mr. Link answered yes, that is the goal, but it will not be all day virtual learning.

Mrs. Martineau asked if there was a plan in place to continue breakfast and lunches in the hybrid model for those families with food insecurity. Mr. Link answered that we are working through the grab and go lunch model and when we have more information, it will be part of the FAQ.

Mrs. Husack questioned whether we are still on target for August 31, 2020, to be the first day of school. Mr. Link answered, yes.

Mr. Link asked the board to consider delaying the start of sports for the fall season to no sooner than the end of the first week of school. PIAA has paused sports until August 21, 2020, when they will be giving an update. Mr. Link stated that he would like the opening of schools to be a priority before athletics. He is comfortable with voluntary sessions continuing.

Mrs. Heckman asked, if for example, football starts on Monday, if students choose to come that is fine, but they will not be penalized for not attending. Mr. Link responded, if a family chooses not to attend voluntary practices, that cannot be a decision as to whether or not they make the team. Mrs. Heckman asked about NLYAA using our facilities for practices. Mr. Link replied that outdoor facilities would be available. Mr. Link strongly recommended that NLYAA follow our guidelines, but they have their own board of directors.

Sports Reopening Date
A motion was made by Mr. Green, and seconded by Mr. Kern, that voluntary athletic practices be allowed to resume August 11, 2020, but mandatory practices cannot begin before September 8, 2020.

A community member asked how can we allow sports to happen, voluntary or mandatory, if students cannot be in the buildings five days per week. Mr. Link responded that we are allowing voluntary practices because of the tight controls that are in place. We have not had any positive tests on approximately 2,000 screenings since voluntary practices began.

Mr. Link thanked the Hope Lutheran Church for their donations. Recent donations included a check for $638.30, from the coin drive they conducted, plus a total of $700 in food donations for the backpack buddy program. The church has been a great partner throughout the school shutdown, summer program, and now our fall program. A big thank you to them for supporting our students.

Mr. Green asked how many meals we have served. Mrs. Bahnick reported that in June, we served 5,819 meals, and in July we served 6,908 meals.
Mr. Fedorcha reported that an executive session was held via Google Meet on August 5, 2020 and also prior to tonight’s meeting to discuss personnel issues.

INFORMATION

Minutes of the Carbon Lehigh Intermediate Unit 21 Board of Directors meetings held on May 18, 2020, and June 15, 2020, were distributed.

Minutes of the Lehigh Carbon Community College Board of Trustees meetings held on May 7, 2020, and June 4, 2020, were distributed.

Minutes of the Lehigh Career & Technical Institute Joint Operating Committee meeting held on May 20, 2020, were distributed.

Mr. Hill stated that the community is questioning whether we will be doing temperature checks and is it going to be done before they get on the bus, at school or do families have to self-check. Mr. Link answered that we are continuing to ask our families to go through the screening process at home. Quick reference cards will be mailed to each family. For safety reasons, we are unable to do them at the bus stops. We are working on a plan to take temperatures of each student, each morning, before they enter the building. We will reach out to the families if a child has a temperature. Mr. Fedorcha asked families to please self-check at home to avoid exposing other children on the bus and to avoid having the children wait to be picked up at the school.

Mrs. Husack thanked the administration, staff, and students for their cooperation as we plan out this school year.

ADJOURNMENT

Mrs. Husack made a motion, which was seconded by Mr. Keegan, that the regular meeting of the Northern Lehigh School District Board of School Directors is adjourned at 8:58 p.m.

Respectfully submitted,

Gale N. Husack
Secretary
