## INTRODUCTORY SECTION

CERTIFIED PUBLIC ACCOUNTANTS

Members of the Board Northern Lehigh School District 1201 Shadow Oak Lane Slatington, PA 18080-1299

We have performed the Single Audit of the Northern Lehigh School District for the fiscal year ended June 30, 2023, and have enclosed the Single Audit reporting package.

The Single Audit was done to fulfill the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, which entailed:

- 1. An audit of the basic financial statements, and our opinion thereon;
- **2.** A review of compliance and of internal control over financial reporting based on an audit of the financial statements performed in accordance with Governmental Auditing Standards, and our report thereon;
- **3.** An examination of the Schedule of Expenditures of Federal Awards and our report thereon; and,
- **4.** An opinion on compliance with requirements applicable to each major program, and a review of internal control over compliance in accordance with the Uniformed Guidance, explained above, and our report thereon.

Respectfully submitted,

Your Cessouth P.C.

## INDEPENDENT AUDITOR'S REPORT

Board of School Directors Northern Lehigh School District 1201 Shadow Oaks Lane Slatington, PA 18080-1299

## Report on the Audit of the Financial Statements

## **Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Northern Lehigh School District, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Northern Lehigh School District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Northern Lehigh School District, as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Northern Lehigh School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Change in Accounting Principle

As described in Note 2-G to the financial statements, in 2023, the District adopted new accounting guidance, GASB Statement No. 96, SBITA's. Our opinion is not modified with respect to this matter.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

1825 Franklin Street Northampton, Pennsylvania 18067 - 1573 tele} 610/ 262/ 1280 fax} 610/ 262/ 1756 www.gaapc.com In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Northern Lehigh School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, and design and perform audit procedures responsive to those risks. Such
  procedures include examining, on a test basis, evidence regarding the amounts and disclosures in
  the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of the Northern Lehigh School District's internal control. Accordingly,
  no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Northern Lehigh School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 6-16, the schedules associated with the District's Defined Benefit Pension Plan, and the Schedules of the District's OPEB Plans, on pages 77-84, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Northern Lehigh School District's basic financial statements. The accompanying combining and individual nonmajor fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 20, 2023, on our consideration of the Northern Lehigh School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Northern Lehigh School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Northern Lehigh School District's internal control over financial reporting and compliance.

Respectfully submitted,

Northampton, Pennsylvania

# MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) Required Supplementary Information (RSI) UNAUDITED For the Year Ended June 30, 2023

The discussion and analysis of Northern Lehigh School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2023. The intent of this discussion and analysis is to look at the District's financial performance as a whole and (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the District's financial activity, (c) identify changes in the District's financial position (its ability to address the next and subsequent year's challenges), (d) identify any material deviations from the financial plan (the approved budget), and (e) identify individual fund issues or concerns. Readers should also review the financial statements and notes to enhance their understanding of the District's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the new reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

## FINANCIAL HIGHLIGHTS

- As of June 30, 2023, the District's,
  - District-wide total net position increased by \$2,609,353 to a balance of \$3,308,676
  - Governmental Net Position increased by \$1,784,819 to a balance of \$3,357,923
  - Business-Type Net Position increased by \$824,534 to a balance of (\$49,247)
  - General Fund Balance has increased by \$1,371,027 to a balance of \$16,047,541

## **USING THIS ANNUAL REPORT**

This annual report consists of a series of financial statements and notes to those statements. They are organized for the reader to understand Northern Lehigh School District's operations as a whole as well as major individual funds. These statements further provide a detailed look at specific financial activities.

The first two provided statements are The Statement of Net Position and the Statement of Activities which provide both long-term and short-term information concerning the District's overall financial state.

The remaining statements are more detailed fund financial statements which focus on individual parts of the District's operations. The governmental fund statements show how general District services were financed in the short term and remaining funds for future District spending. Proprietary fund statements offer both short-term and long-term financial information for the activities of the Food Service Fund which the District operates as a business. Fiduciary fund statements provide information on resources that do not belong to the District, however the District has a financial relationship acting solely as a trustee or agent for these funds.

Figure A-1 shows how the required parts of the Financial Section are arranged and relate to one another.

Figure A-1

## Required Components of Northern Lehigh School District's Financial Report

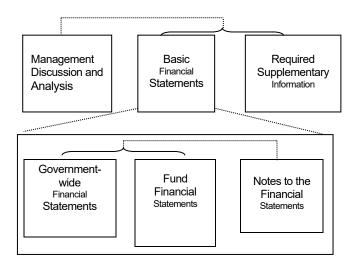

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District they cover and the types of information they contain. The remainder of this overview section of management discussion and analysis explains the structure and contents of each of the statements.

Type of inflow- outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid	All revenues and expenses during year, regardless of when cash is received or paid			

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

#### Government-Wide Financial Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private sector companies. The Statement of Net Position (the "unrestricted net position") includes all the government's assets, deferred outflows of resources, liabilities, and deferred inflows of resources similar to a bottom line for the District and its governmental and business-type activities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The Statement of Activities focuses on both the gross and net cost of activities, provided by general tax and other revenues. This is intended to summarize for the reader the cost of various governmental services and/or subsidies for various business-type activities.

The two government-wide statements report the District's net position and how they have changed. Net Position, the difference between the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources are one way to measure the District's financial health or position. Increases or decreases in the District's net position is an indication of the District's improving or deteriorating financial health, respectively.

To assess the overall health of the District, you need to consider additional factors, such as the increasing property tax base, outlook for future growth, strength of financial policies and planning, and student performance and achievement.

The government-wide financial statements of the District are divided into two categories:

- Governmental activities All of the District's basic services are included here, such as instruction, administration and community services. Property taxes and state and federal subsidies and grants finance most of these activities.
- Business type activities The District operates a food service operation and charges fees to staff, students, and visitors to help it cover the costs of the food service operation.

## Fund Financial Statements

The District's fund financial statements provide detailed information about the most significant funds – not the District as a whole. Some funds are required by state law and by bond requirements.

• Governmental Funds - Most of the District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

- Proprietary Funds These funds are used to account for the District activities that are similar to business operations in the private sector; or where the reporting is on determining net income, financial position, changes in financial position, and a significant portion of funding through user charges. When the District charges customers for services it provides whether to outside customers or to other units in the District these services are generally reported in proprietary funds. The Food Service Fund is the District's proprietary fund and is the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information, such as cash flows.
- Fiduciary Funds The District is the trustee, or fiduciary, for some scholarship funds. All of the
  District's fiduciary activities are reported in separate Statements of Fiduciary Net Position. We
  exclude these activities from the District's other financial statement because the District cannot
  use these assets to finance its operations.

## FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The total net position is \$3,308,676 at June 30, 2023. This is an increase in net position of \$2,609,353 from the net position for the previous fiscal year. **The following table does not reflect internal balances in the "total" column for each year.** 

Table A-1
Fiscal Years Ended June 30, 2023

Restricted		219,516		-		219,516		144,183		-		144,183
Unrestricted		(23,279,358)		(792,832)		(24,072,190)	l	(25,914,699)		(958,786)		(26,873,485)
Total Net Position	_	3,357,923	_	(49,247)	_	3,308,676		1,573,104	_	(873,781)	_	699,323
Total Liabilities, Deferred Inflow of Resources, & Net Position	\$	76,753,237	\$	1,340,045	<u>\$</u>	78,093,282	\$	75,949,542	\$	581,054	\$	76,530,596

Most of the District's net position is invested in capital assets (buildings, land, and equipment). The remaining unrestricted is combined of designated and undesignated amounts. The designated balances are amounts set-aside to fund future purchases or capital projects as planned.

The results of this year's operations as a whole are reported in the Statement of Activities. All expenses are reported in the first column. Specific charges, grants, revenues, and subsidies that directly relate to specific expense categories are represented to determine the final amount of the district's activities that

are supported by other general revenues. The two largest general revenues are the Basic Education Subsidy provided by the State of Pennsylvania, and the local taxes assessed to community taxpayers.

Table 2 takes the information from that statement, rearranges it slightly, so you can see our total revenues for the year.

The tables below present the expenses of both the Governmental Activities and the Business-type Activities of the District.

Table 3 shows the District's eight largest functions – instructional programs, instructional student support, administrative, operation and maintenance of plant, pupil transportation, student activities, community services, food service as well as each program's net cost (total cost less revenues generated by activities). This table also shows the net costs offset by the other unrestricted grants, subsidies and contributions to show the remaining financial needs supported by local taxes and other miscellaneous revenues.

The Statement of Revenues, Expenses and Changes in Fund Net Position for this proprietary fund will further detail the actual results of operations.

#### THE DISTRICT FUNDS

At June 30, 2023, the District's governmental funds reported a combined fund balance of \$18,275,031, an increase of \$3,454,334 from the previous year.

General fund operating revenues exceeded expenditures by \$1,371,027 resulting in an ending total General Fund balance of \$16,047,541.

In the Capital Reserve Fund, the District actively prepares for unexpected and proposed capital projects each year. In order to fund these projects without the need for additional borrowing issues, the District has established this fund and makes transfers from available fund balance of the General Fund to this fund. There were no additional Capital outlay projects covered by the Capital Reserve Fund this year. The Board of Education approved transfers to the Capital Reserve Fund for expenditures not charged, and donations received, based on an ongoing partnership with St. Luke's University Health Network. The Capital Reserve increased by \$75,333 and ended June 30, 2023 with a fund balance of \$219,516.

In the Capital Projects Fund, the District prepares for upgrades during the 2023-24 school year to the Baseball/Softball field and surrounding area. In order to fund these projects, the district secured a bond for these costs. Adjustments during the year occurred from expenses paid and interest received leaving the Capital Projects Fund with a fund balance as of June 30, 2023 of \$2,006,508 and a Debt Service fund balance of \$1,466.

## General Fund Budget

During the fiscal year, the Board of School Directors (The Board) authorizes revisions to the original budget to accommodate differences from the original budget to the actual expenditures of the District. All adjustments are again confirmed at the time the annual audit is accepted, which is after the end of the fiscal year, which is not prohibited by state law. A statement showing the District's original and final budget amounts compared with amounts actually paid and received is provided in the Annual Financial Report.

The General Fund overall operating revenues of \$39,347,002 were \$3,773,742 greater than originally budgeted. Local revenues were \$1,451,547 higher than budgeted due to real estate taxes, investments and other revenues exceeding budgeted levels. State subsidy revenues were \$1,408,813 due to higher revenues received than budgeted for basic education, special education, non-resident foster, State awarded grants, and retirement. Federal grant revenues were \$410,922 higher than budgeted due to the availability of ESSER relief funding. Proceeds from extended financing terms were \$502,460 higher than budgeted due to midyear new technology purchases.

Total expenditures of \$37,975,975 were \$144,061 higher than originally budgeted. Charter school costs, student outplacement, and additional support for special education students continue to exceed original budget projections, which were offset by positive budget variances in a majority of other categories.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

## Capital Assets

At June 30, 2023, the District had \$46,362,051 invested in a broad range of capital assets, including land, buildings and furniture and equipment. This amount represents a net decrease (including additions, deletions, and depreciation) of \$1,744,258 from the previous year.

## **Debt Administration**

As of July 1, 2022, the District had total outstanding debt of \$20,545,000. During the year the district issued new debt and repaid \$1,490,000 in actual repayments resulting in an ending outstanding debt as of June 30, 2023 of \$21,225,000.

Detailed information on long-term liabilities for accrued vacation pay and sick leave obligations for specific employees is included in the notes to the financial statements.

## **ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE**

The Northern Lehigh School District continues to reflect a district suffering from significant financial plight. It remains a district with almost no industrial base from which to draw taxes forcing local property owners/taxpayers to bear the brunt of funding a quality education program. While the financial burden limits the programs the district can offer similar to more affluent neighboring school districts, various grants have allowed Northern Lehigh School District to move ahead with cutting

edge educational programs and opportunities for students. This would include such programs as full day kindergarten, a multi-tiered intervention model served through MTSS (intervention in all educational areas), and a partnership with area preschools to create a cohesive curriculum for our youngest learners. We also continue to provide a one to one computer/student ratio throughout the District encompassing grades K to 12. So even though the district suffers from an incredible financial burden, it offers one of the best educational programs K to 12 and envisions an even brighter educational future. The District also continues to look for grant monies and partnerships in order to develop programs focusing on safety and security, advancements in technology applications and staff training and support, and recovery of learning loss created by the COVID-19 pandemic.

Many external factors will also continue to have influence over the district's future. The State of Pennsylvania has already notified the district of rises in the employer contribution rates to the retirement system over the next several years to offset many deficits in their funding. Cost increases to employer provided healthcare continues to create budgetary concerns for the District. There is also a continuous need to replace and enhance technological aspects of the district to keep the students up to date with programs they will encounter in post-educational programs.

The continued use of Act 1 of 2006 causes Northern Lehigh to face large financial hurdles by trying to equalize mills in a district that crosses county borders and has taxing authority in two counties. This does not allow the district to have the ability to take full value of the index set by PDE and by which the district must now develop its budget.

## **NEXT YEAR'S BUDGET (2023-2024)**

Some factors affecting budgeted revenues are:

\* CARES Act ESSER Fund, ARP ESSER, and ARP ESSER 7% grant funding will continue for the 2023-2024 school year however, when these funds are no longer available the District will be forced to look at the added staffing, programs, and technology platforms funded through these grants to determine whether or not they are necessary to maintain a high-quality education program. It is uncertain if Northern Lehigh will continue to get an increase in basic education and special education subsidy from the Department of Education and could even experience a decrease in funding due to the implementation of the state funding formula. Potential revenue shortfalls in the State budget and the limited ability to raise taxes in accordance with Act 1 of 2006, continues to be a concern for the District.

Items which could affect expenditures for the 2023-2024 Budget:

- The District should continue to see savings in both electric and fuel oil costs in the buildings where the ESCO project was completed.
- The increase in retirement rates and medical costs continue to make budgeting difficult.
   Employees are working longer due to the high cost of health care rather than taking advantage of their pension plan. Therefore, the district is not seeing any significant reduction in salary and benefits.
- The District is also experiencing an increase in Special Education costs due to the number of students identified and the nature of their disability. To meet the needs of these students and remain in compliance with state regulations, additional staff may need to be employed.
- No requirement or advance notice for district students to enroll in brick and mortar/cyber charter schools will continue to be a burden for the district at a rate of \$13,250 per regular education student and a rate of \$32,960 per special education student. This makes it impossible to budget properly for these costs. The District continues to operate its own cyber charter school with the hope of reducing these unpredictable costs; however, we are still experiencing increases in charter school enrollments with entities outside of the District.

# Northern Lehigh School District Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position As of June 30, 2023

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS	\$	18,275,031
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of the assets is \$78,652,991 and the accumulated depreciation is \$32,290,940.		46,362,051
Additional receivables established that do not meet the availability criteria reflected in the fund financial statements. This amount represents the difference between the prior year receivables and the current year receivables established under the accrual basis of accounting.	r	-
Property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures and therefore are deferred in the funds.	)	1,516,079
This represents deferred inflows and outflows of resources resulting in deferred charges on refunding prior bond issues.	<b>;</b>	(217,802)
This represents deferred outflows of resources, net of deferred inflows of resources pertaining to the Net Pension Liability and the two Net OPEB Liabilities.	;	4,829,106
The governmental funds follow the purchase method of inventory; therefore no inventory is reflected on the balance sheet. However, the statement of net position uses the consumption method of inventory.		-
Long-term liabilities, including bonds payable, are not due and payable in the curren period and therefore are not reported as liabilities in the funds. Long-term liabilities a year end consist of:		(67,406,542)
TOTAL NET POSITION - GOVERNMENTAL ACTIVITIES	\$	3,357,923

# Northern Lehigh School District Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes In Fund Balances to the Statement of Activities For the Year Ended June 30, 2023

## **NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS** 3,454,334 Amounts reported for governmental activities in the statement of activities are different because: Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. Depreciation expense \$ 2,280,975 536,715 less - capital outlays (1,744,260)Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Deferred inflows of resources decreased by this amount this year. (22,817)Repayment of bond, finance purchases, and lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 1,772,282 In the statement of activities, certain operating expenses - compensated absences (vacations) and special termination benefits (early retirement) - are measured by the amounts earned during the year. In the governmental funds; however, expenditures for these items are measured by the amount of financial resources used. This amount represents the difference between the amount earned versus the amount used. (155,897)Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, interest expense is recognized as the interest accrues, regardless of when it is due. This would include accumulated interest accreted on capital appreciation bonds. The additional interest accrued in the statement of activities over the amount due is shown here. 68,158 Bond, finance purchase, and lease proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Refunding bond issues becomes a use of current financial resources in governmental funds, but refundings represent payments of long-term debt in the statement of net position. This figure represents the difference between bond and lease proceeds and refunding payments made to paying agents, along with removing other financing souces. (3,050,949)The difference between current year pension and OPEB expense reported on the governmental activities column of the government-wide financial statements and the pension and OPEB contributions made this past year reported as expenditures in the governmental funds. 1,463,968

The Accompanying Notes are an integral part of these financial statements.

## Northern Lehigh School District Notes To Basic Financial Statements Fiscal Year Ended June 30, 2023

## Note 1 - Description of the School District and Reporting Entity

## **School District**

The Northern Lehigh School District is located in Slatington, Pennsylvania. The District tax base consists of the Boroughs of Slatington and Walnutport, along with Washington Township.

The Northern Lehigh School District is a unit established, organized, and empowered by the Commonwealth of Pennsylvania for the express purpose of carrying out, on the local level, the Commonwealth's obligation to public education, as established by the constitution of the Commonwealth and by the School Law Code of the same (Article II; Act 150, July 8, 1968).

As specified under the School Law Code of the Commonwealth of Pennsylvania, this and all other school districts of the state "shall be and hereby are vested as, bodies corporate, with all necessary powers to carry out the provisions of this act." (Article II, Section 211).

## **Board of School Directors**

The public school system of the Commonwealth shall be administered by a board of school directors, to be elected or appointed, as hereinafter provided. At each election of school directors, each qualified voter shall be entitled to cast one vote for each school director to be elected.

The Northern Lehigh School District is governed by a board of nine School Directors who are residents of the School District and who are elected every two years, on a staggered basis, for a four-year term.

The Board of School Directors has the power and duty to establish, equip, furnish, and maintain a sufficient number of elementary, secondary, and other schools necessary to educate every person, residing in such district, between the ages of six and twenty-one years, who may attend.

In order to establish, enlarge, equip, furnish, operate, and maintain any schools herein provided, or to pay any school indebtedness which the school district is required to pay, or to pay any indebtedness that may at any time hereafter be created by the school district, the board of school directors are vested with all the necessary authority and power annually to levy and collect the necessary taxes required and granted by the legislature, in addition to the annual State appropriation, and are vested with all necessary power and authority to comply with and carry out any or all of the provisions of the Public School Code of 1949.

## Administration

The Superintendent of Schools shall be the executive officer of the Board of School Directors and, in that capacity shall administer the School District in conformity with Board policies and the School Laws of Pennsylvania. The Superintendent shall be directly responsible to, and therefore appointed by, the Board of School Directors. The Superintendent shall be responsible for the overall administration, supervision, and operation of the School District.

The Business Manager, recommended by the Superintendent and appointed by the Board of School Directors, shall supervise and coordinate all business aspects of the School District. In this capacity, he or she shall be responsible to insure that all work accomplished by him/her, or by persons under his/her supervision, is in the best interests of the Northern Lehigh School District. The Business Manager is directly responsible to the superintendent.

## Reporting Entity

A reporting entity is comprised of the primary government, component units, and other organizations that are included to insure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Northern Lehigh School District, this includes general operations, food service, and student related activities of the School District.

Northern Lehigh School District is a municipal Corporation governed by an elected nine-member board. As required by generally accepted accounting principles, these financial statements are to present Northern Lehigh School District (the primary government) and organizations for which the primary government is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are financially dependent on the School District in that the School District approved the budget, the issuance of debt, or the levying of taxes. The Northern Lehigh School District does not have any component units.

#### **Joint Ventures**

## Lehigh Career and Technical Institute

The School District is a participating member of the Lehigh Career and Technical Institute (LCTI). The LCTI is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee. The board of directors of each participating district must approve the LCTI's annual operating budget. Each participating district pays a pro-rata share of the LCTI's operating costs based on the number of students attending the LCTI for each District. The District's share of the LCTI operating costs for 2022-23 was \$1,324,111.

On dissolution of the Lehigh Career and Technical Institute, the net position of LCTI will be shared on a pro-rata basis of each participating district's current market value of taxable real property as certified by the Pennsylvania State Tax Equalization Board. However, the District does not have an equity interest in LCTI as defined by GASB Statement No. 14, except a residual interest in the net position upon dissolution that should not be reflected on the basic financial statements. Complete financial statements for the LCTI can be obtained from the LCTI's administrative office at 4500 Education Park Drive, Schnecksville, PA.

#### Lehigh-Carbon Community College

The District is a participating member of the Lehigh-Carbon Community College (LCCC). The LCCC is run by a Board of Trustees elected by the participating member districts' boards of directors. No participating district appoints a majority of the Board of Trustees. A vote of two-thirds of all member districts shall be required for approval of the LCCC's annual operating budget. The amount of the annual operating costs of the LCCC shall be apportioned among the member districts on the basis of the number of full-time equivalent students enrolled in LCCC and residing in the respective geographical areas of each of the member districts. The District's share of LCCC's operating costs for 2022-23 was \$173,380.

On dissolution of the Lehigh-Carbon Community College, the net position of LCCC will be shared on a pro-rata basis of each member district's current market value of taxable real property as certified by the Pennsylvania State Tax Equalization Board. However, the District does not have an equity interest in LCCC as defined by GASB Statement No. 14, except a residual interest in the net position upon dissolution that should not be reflected on the basic financial statements. Complete financial statements for the LCCC can be obtained from the LCCC's administrative office at 4525 Education Park Drive, Schnecksville, PA.

#### Jointly Governed Organizations

## Carbon-Lehigh Intermediate Unit

The School District is a participating member of the Carbon-Lehigh Intermediate Unit (CLIU). The CLIU is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee. The board of directors of each participating district must approve the CLIU's annual operating budget. The CLIU is a self-sustaining organization that provides

services for fees to participating districts. As such, the District has no on-going financial interest or financial responsibility in the CLIU. The CLIU contracts with participating districts to supply special education services, computer services, and acts as a conduit for certain federal programs.

#### Undivided Interest - Recreation Commission

The school district has an undivided interest with the Borough of Slatington and Township of Washington creating a Recreation and Park Board. The Board shall have the power to equip, operate, and maintain parks, playgrounds, playfields, gymnasiums, public baths, swimming pools, and indoor recreation. The Board shall have representatives of the above-mentioned government entities. Each government entity agreed to contribute \$500 per year to fund administrative expenses; however, no contribution has been made in recent years. The Northern Lehigh Recreation Commission may accept any grant, gift, bequest, or donation, or money from any individual or group to be used as specified by the donor.

#### Note 2 - Summary of Significant Accounting Policies

The financial statements of the District have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. On June 15, 1987, the GASB issued a codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. The more significant of these accounting policies are described below and, where appropriate, subsequent pronouncements will be referenced. GASB Statement No. 62 was issued to include all prior Financial Accounting Standards Board's statements and interpretations, along with predecessors' statements and interpretations pertaining to governments into the hierarchy of the Governmental Accounting Standards Board's jurisdiction.

#### A. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position, a statement of activities, and fund financial statements which provide a more detailed level of financial information.

**Government-wide Financial Statements** The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental and business-type activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities and for one business-type activity of the School District. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business activity or governmental function is self-financing or draws from the general revenues of the School District.

**Fund Financial Statements** During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The fiduciary funds are reported by type.

#### B. Fund Accounting

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Deferred outflows of resources are recorded in a particular governmental fund where costs are spent for a future period. Current Liabilities are assigned to the governmental fund from which they will be paid. Deferred inflows of resources are recorded in a particular governmental fund that has received resources for a future period. The difference between the sum of assets and deferred outflows of resources minus the sum of liabilities and deferred inflows of resources is reported as fund balance. The following are the School District's major governmental funds:

#### **General Fund**

The General Fund should be used to account for and report all financial resources not accounted for and reported in another fund.

#### **Special Revenue Funds**

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The term proceeds of specific revenue sources establish that one or more specific restricted or committed revenues should be the foundation for a special revenue fund. The restricted or committed proceeds of specific revenue sources should be expected to continue to comprise a substantial portion of the inflows reported in the fund. Other resources also may be reported in the fund if those resources are restricted, committed, or assigned to the specified purpose of the fund.

Under this definition, the District does not have any special revenue funds.

#### **Capital Project Funds**

Capital Project Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital project funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments. The District has the following Capital Project Funds:

#### Capital Reserve Fund

This fund was created in accordance with Section 1432 of the Municipal Code. The Municipal Code restricts how the resources are spent with in this fund

#### Capital Project Fund

This fund was created from the issuance of the General Obligation Notes Series of 2022 to finance various capital improvements to School District facilities.

#### **Debt Service Fund**

Debt Service Fund(s) account for resources accumulated to provide for payment of general long-term debt principal and interest. The Pennsylvania Local Government unit Debt Act authorized Pennsylvania public Schools to maintain this fund.

#### 2022 Debt Service Fund

This fund was created with the issuance of General Obligation Bonds Series of 2022, General Obligations Notes Series of 2022 & General Obligations Bonds Series of 2023 to record the transactions of the refunding of the General Obligations Notes Series A of 2018, restructuring a portion of the General Obligation Notes Series B of 2018, restructuring a portion of the General Obligation Notes Series of 2020, and refunding a portion of the General Obligation Series of 2012.

**Proprietary Funds** The Proprietary Funds of the School District have operating and nonoperating revenues and/or expenses. Transactions for which cash flows are reported as capital and related financing activities, noncapital financing activities, or investing activities are reported as nonoperating revenues and/or expenses, including subsidies received from the state and federal government for school lunches, donated commodities, and amounts received for fica and retirement subsidies. Operating revenues reported are consistent with the fees or charges incurred based on the intent of the individual proprietary fund.

#### **Enterprise Funds**

Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The School District's major enterprise fund is:

#### Food Service Fund

This fund accounts for the financial transactions related to the food service operations of the School District.

**Fiduciary Funds** Fiduciary funds reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: Pension (and other employee benefit) trust funds, investment trust funds, Private-purpose trust funds and Custodial funds. The School District has two Fiduciary Funds:

#### HS & MS Student Activity Fund

These funds are considered custodial funds and are reported as such in the Statement of Net Position Fiduciary Funds and the Statement of Changes in Fiduciary Net Position. Custodial funds are used to report fiduciary activities that are not required to be reported in one of the other three Fiduciary fund types.

#### C. Measurement Focus

**Government-wide Financial Statements** The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of the School District are included on the statement of net position.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet, along with deferred outflows of resources or deferred inflows of resources required to be reported. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements

therefore include reconciliation's with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all enterprise funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities, including required deferred outflows of resources or required deferred inflows of resources, associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses, and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its enterprise activities.

## D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources, and in the presentation of expenses versus expenditures.

**Revenues - Exchange and Non-Exchange Transactions** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

#### E. Budgetary Process

An operating budget is adopted prior to the beginning of each year for the General Fund on the modified accrual basis of accounting. The General Fund is the only fund for which a budget is legally required.

In accordance with Act 1 of 2006, the Board shall annually, but not later than the first business meeting of January, decide the budget option to be used for the following fiscal year. The Board shall approve either the Accelerated Budget Process Option or the Board Resolution Option.

#### **Accelerated Budget Process Option**

Under this option, a preliminary budget must be prepared 150 days prior to the primary election. Under this Option, the preliminary budget must be available for public inspection at least 110 days prior to the primary election. The Board shall give public notice of its intent to adopt the preliminary budget at least 10 days prior to the adoption. The adoption must occur at least 90 days prior to the primary election.

If the preliminary budget exceeds the increase authorized by the Index, an application for an exception may be filed with either a Court of Common Pleas with jurisdiction or PDE and made available for public inspection. The Board may opt to forego applying for an exception by submitting a referendum question seeking voter approval for a tax increase, in accordance with Act 1.

The final budget shall include any necessary changes from the adopted preliminary budget. Any reduction required as the result of the failure of referendum shall be clearly stated. The final budget shall be made available for public inspection at least 20 days prior to final adoption. The Board shall annually adopt the final budget by a majority vote of all members of the Board prior to June 30.

#### **Board Resolution Option**

Under the Board Resolution Option, the Board shall adopt a resolution that it will not raise the rate of any tax for the following fiscal year by more than the Index. Such resolution shall be adopted no later than 110 days prior to the primary election. At least 30 days prior to adoption of the final budget the Board shall prepare a proposed budget. The proposed budget shall be available for public inspection at least 20 days prior to adoption of the budget. The Board shall give public notice of its intent to adopt at least 10 days prior to adoption of the proposed budget. The Board shall annually adopt the final budget by a majority vote of all members of the Board by June 30.

Legal budgetary control is maintained at the sub-function/major object level. The PA School Code allows the School Board to make budgetary transfers between major function and major object codes only within the last nine months of the fiscal year, unless there is a two-thirds majority of the Board approving the transfer. Appropriations lapse at the end of the fiscal period. Budgetary information reflected in the financial statements is presented at or below the level of budgetary control and includes the effect of approved budget amendments.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the PDE 2028 when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all 2022-23 budget transfers.

#### F. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### G. Changes in Accounting Principles

During the 2022-23 fiscal year the School District implemented the following new generally accepted accounting principles:

GASB Statement No. 81 (Conduit Debt Obligations). The objective of this Statement is provides a single method of reporting conduit debt obligations by issuers associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures.

GASB Statement No. 94 (PPP's). The objectives of the statement are to improve financial reporting related to public-private and public-public partnership arrangements (PPPs). A PPP is defined in which (1) the operator collects and is compensated by fees from third parties: (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services: and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement.

GASB Statement No. 96 (SBITA's). - This statement provided guidance on accounting and financial reporting for subscription-based information technology arrangements (SBITAs). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to use subscription asset – and intangible asset – and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA.

GASB Statement No. 99 (Omnibus 2022). The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees.

#### H. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System and additions to/deductions from the Public School Employees' Retirement System's fiduciary net position have been determined on the same basis as they are reported by the Public School Employees' Retirement System. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### I. Other Postemployment Benefits

Multiple Employer Cost Sharing OPEB Plan

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### Single Employer OPEB Plan

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information was obtained from the Actuary Report conducted by Conrad Siegel. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. The single employer plan is not funded.

#### J. Assets, Liabilities, and Net Position

## Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the Proprietary Fund type considers all highly liquid investments with a maturity of three months or less, when purchased, to be cash equivalents.

#### Investments

In accordance to GASB Statement No. 72, investments generally are to be measured at fair value. An investment is defined as a security or other asset that (a) a government holds primarily for the purpose of income or profit and (b) has the present service capacity based solely on its ability to generate cash or to be sold to generate cash. Investments not measured at fair value continue to include, for example, money market investments, 2a7-like external investment pools, investments in life insurance contracts, common stock meeting the criteria for applying the equity method, unallocated insurance contracts, and synthetic guaranteed investment contracts.

A government is permitted in certain circumstances to establish the fair value of an investment that does not have a readily determinable fair value by using the net asset value per share of the investment.

This Statement requires measurement at acquisition value (an entry price) for donated capital assets, donated works of art, historical treasures, and similar assets. These assets were previously required to be

measured at fair value. Fair Value is measured using a hierarchy of inputs using valuation techniques. The hierarchy has three levels. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are inputs, other than quoted prices, that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs.

The valuation techniques should be consistent with one or more of the following approaches: the market approach, the cost approach, or the income approach. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The cost approach reflects the amount that would be required to replace the present service capacity of an asset. The income approach converts future amounts (such as cash flows or income and expenses) to a single current (discounted) amount.

### Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

## Property Tax Levy

Property taxes, which were levied during the fiscal year ended June 30, 2023, are recognized as revenue in the fund financial statements when received by the District during the fiscal year and also estimated to be received by the District within sixty (60) days after the fiscal year ended.

Property taxes that were levied during the current fiscal year, which are not estimated to be received within sixty (60) days after the fiscal year-end, are recorded as receivable and deferred inflows of resources in the fund financial statements.

In the government-wide financial statements, all property taxes levied during the fiscal year are recognized as revenue, net of estimated uncollectible amount.

#### *Inventories*

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis, and are expensed when used. A physical inventory taken at June 30, 2023, shows \$54,945 as an asset in the governmental activities column of the government-wide financial statements; a physical inventory taken on June 30, 2023 shows \$46,197 as an asset in the business-type activities column of the government-wide financial statements.

Inventory type items in governmental funds utilize the consumption method, that is, they are charged to expenditures when used. A physical inventory was taken as of June 30, 2023; therefore, there is a nonspendable fund balance of \$46,197 in the General Fund.

Inventory type items in Proprietary Funds use the consumption method, in which items are purchased for inventory and charged to expenses when used. The only Proprietary Fund of the District is the Food Service Fund. Inventory within this fund consists of donated commodities, which are valued at U.S.D.A.'s approximate costs and purchased food and supplies.

Inventories on hand at June 30, 2023, consist of:

Purchased Food Supplies Donated Commodities	\$ 35,860 596 9,741
TOTAL	\$ 46,197

## Prepaid Expenses

In both the government-wide and fund financial statements, prepaid expenses are recorded as assets in the specific governmental fund in which future benefits will be derived.

#### Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements. Capital assets utilized by the enterprise funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of two thousand-five hundred (\$2,500) dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets utilized by the enterprise funds is also capitalized.

All reported capital assets except land, certain land improvements, and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
ite Improvements	10 - 20 years	10 - 20 years
suildings and Improvements	20 - 50 years	20 - 50 years
urniture and Equipment	5 - 20 years	5 -20 years
Right-to-use Equipment	Length of Lease	Length of Lease

## Compensated Absences

The School District reports compensated absences in accordance with the provisions of GASB No. 16, "Accounting for Compensated Absences". Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. In enterprise funds, the entire amount of compensated absences is reported as a fund liability.

#### Leases

#### Lessee:

The District recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The District recognizes lease liabilities with an initial, individual value of \$20,000 or more.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest
  rate charged by the lessor is not provided, the District generally uses its estimated incremental
  borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability. Lease assets are reported with other capital assets and lease liabilities are reported with long- term debt on the statement of net position.

#### Lessor:

At the commencement of a lease, the District initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the District determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The District uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The District monitors changes in circumstances that would require a remeasurement of its lease, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

## SBITAs (Subscription Based Information Technology Arrangements)

Occasionally the District enterers into Subscription-Based Information Technology Arrangements. These arrangements grant the District the right to access use of software that is hosted by third-party vendors over a specified contract term. Unlike traditional software, the District does not take physical possession of or have the right to control the software; instead, it accesses the uses the software remotely.

In the entity-wide financial statements, SBITAs are reported as intangible assets based on the present value of future subscription payments to be made over the life of the arrangement. Correspondingly, a liability is recognized for the future payments, and it is amortized over the life of the SBITA. The amortization expense related to the intangible asset and any interest expense associated with the recognized liability are reported in the Statement of Activities.

In the fund financial statements, under the modified accrual basis of accounting, expenditures are recognized for SBITA payments when they are due. Therefore, no intangible asset or corresponding liability is reported in the governmental fund statements. The expenditures related to SBITA payments are recognized in the fund's Statement of Revenues, Expenditures, and Changes in Fund Balances in the period they payment is due.

#### Other Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net position. Bond premiums and discounts, and deferred amounts on refunding's are deferred and amortized over the life of the bonds using modification of the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Any deferred amount on refunding's are reported as deferred outflows of resources and amortized over the life of the bond issue. Bond issuance costs are expensed in the year they are incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts and premiums on debt issuances are reported as other financing uses and other financing sources, respectively. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as support service expenditures

#### Reclassification

Certain amounts have been reclassified to conform to the June 30, 2023, presentation of government-wide financial statements on the accrual basis of accounting versus the governmental fund financial statements reported on the modified accrual basis of accounting.

#### Net Position

Net Position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net Investment in Capital Assets component of Net Position is comprised of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. In addition, any deferred outflows of resources and/or deferred inflows of resources related to such capital assets or liabilities associated with the capital assets should also be added to or deducted

from the overall Net Investment in Capital Assets. The restricted component of Net Position is used when there are limitations imposed on their use either through the enabling legislation adopted by a higher governmental authority or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The remaining component of Net Position is unrestricted.

The School District applies restricted resources first when an expense is incurred for purposes for which both the restricted and unrestricted components of net position are available.

#### Fund Balance Categories

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Below are the potential categories of fund balance the government may use with their definitions, the actual categories used is explained in Note 8 to the financial statements:

#### Nonspendable Fund Balance

This category includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

#### Restricted Fund Balance

Fund balance should be reported as restricted when constraints placed on the use of resources are externally imposed by creditors, grantors, contributors, or other government laws or regulations, or the constraint is imposed by enabling legislation or constitutional provisions.

#### Committed Fund Balance

This category pertains to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. The committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action.

This government's governing body is the School Board and the formal action taken to commit resources is done by resolution.

#### Assigned Fund Balance

This category includes all remaining amounts that are reported in governmental funds, except the general fund, that are not classified in one of the above-mentioned categories. In the general fund, this category represents the District's intent to use resources for a specific purpose, which does not require formal action by the governing body. The District's policy dictates the Superintendent and either Director of Business Affairs are responsible to make these assignments.

#### Unassigned Fund Balance

This category of fund balance represents the residual classification for the general fund after segregating resources used in the other categories listed above. Unassigned fund balance will only be shown in other governmental funds if those governmental funds have a negative net fund balance.

The District's policy on fund balance does not dictate which category of unrestricted fund balance is spent first when resources are available to be spent in various categories. As such, committed amounts will be reduced first, followed by assigned amounts, and then unassigned amounts. The District's policy also does not dictate whether restricted (nonspendable or restricted) or unrestricted (committed, assigned, and unassigned) is spent first when resources are available in both categories. As such, in these circumstances, restricted will be assumed to have been spent first followed by the unrestricted categories.

#### Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of fixed assets, or from grants or outside contributions of resources restricted to capital acquisition and construction. The proprietary funds received no capital contributions during this fiscal year.

#### Note 3 - Reconciliation of Government-Wide and Fund Financial Statements

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.

The governmental fund balance sheet includes reconciliation between "fund balance - total governmental funds" and "net position - governmental activities" as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds". The details of this \$67,406,542 difference are:

Bonds payable	\$	21,225,000
Less: Issuance discount (to be amortized as interest expense)		(60,965)
Add: Issuance premium (to be amortized as a contra to		
interest expense)		351,156
Accrued interest payable		232,629
Finance Purchase Obligations		499,888
Compensated absences		652,922
Net OPEB Liability - Single Employer Plan		1,609,192
Net OPEB Liability - Multiple Employer Plan		1,729,434
Net Pension Liability		41,167,286
Note that the second se		
Net adjustment to reduce "fund balance - total governmental funds"	•	07 400 540
to arrive at "net position - governmental activities"	<u>\$</u>	67,406,542

B. Explanation of Differences between Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the Statement of Activities

Due to the differences in the measurement focus and basis of accounting used on the government fund statements and district-wide statements certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. Differences between the governmental funds statement of revenues, expenditures, and changes in fund balance and the statement of activities fall into one of three broad categories. The amounts shown in the columns on the following page represent.

a) Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the statement of activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis whereas the accrual basis of accounting is used on the statement of activities. The long-term expenses reported below recognize the change in vested employee benefits.

- b) Capital related differences include (1) the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the statement of activities, and (2) the difference between recording an expenditure for the purchase of capital items in the governmental fund statements, and capitalization and recording of depreciation expense on those items as recorded in the statement of activities.
- c) Long-term debt transaction differences occur because long-term debt proceeds are recorded as revenue and both interest and principal payments are recorded as expenditures in the governmental fund statements. In the statement of activities, long-term debt proceeds are recorded as a liability; principal payments are recorded as a reduction of liabilities.

## Note 4 - Stewardship, Compliance, and Accountability

#### A. Compliance with Finance Related Legal and Contractual Provisions

The District has no material violations of finance related legal and contractual provisions.

## B. Deficit Fund Balance or Net Position of Individual Funds

No individual fund contains a deficit fund balance or net position at June 30, 2023, except the business-type activities (food service fund), has a deficit of \$49,247.

## C. Excess of Expenditures over Appropriations in Individual Funds

No individual fund, which had a legally adopted budget, had an excess of expenditures over appropriations.

## D. Budgetary Compliance

The District's only legally adopted budget is for the General Fund. All budgetary transfers were made within the last nine months of the fiscal year. The District cancels all purchase orders open at year-end; therefore, it does not have any outstanding encumbrances at June 30, 2023. In addition, the District includes a portion of the prior year's fund balance represented by unappropriated liquid assets remaining in the fund as budgeted revenue in the succeeding year. The results of operations on a GAAP basis do not recognize the fund balance allocation as revenue as it represents prior period's excess of revenues over expenditures.

#### Note 5 - Detailed Notes on All Funds and Account Groups

#### **Assets**

Cash

#### Custodial Credit Risk - Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the government's deposits may not be returned to it. The District does not have a policy for custodial credit risk. As of June 30, 2023, \$11,583,720 of the District's bank balance of \$12,085,187 was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$	-
Collateralized with securities held by the pledging financial institution		-

#### Investments

Permitted investments for Northern Lehigh School District are defined in the Public-School Code of 1949, as amended by Act 10 of 2016 as:

- **1.** United States Treasury Bills.
- 2. Short-term obligations of the United States Government or its agencies or instrumentalities.
- **3.** Deposits in savings accounts or time deposits or share accounts of institutions insured by the F.D.I.C; and,
- **4.** Obligations of the United States of America or any of its agencies or instrumentalities, the Commonwealth of Pennsylvania or any of its agencies or instrumentalities or any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities.
- **5.** Obligations, participations or other instruments of any Federal Agency, instrumentality or United States government sponsored enterprise, including those issued or fully guaranteed as the principal and interest by Federal agencies, instrumentalities or United States government sponsored enterprises, if the debt obligations are rated at least "A" or its equivalent by at least two nationally recognized statistical ratings organizations.
- **6.** Repurchase agreements with respect to United States Treasury bills or obligations, participations, or other instruments of or guaranteed by the United States or any Federal agency, instrumentality or United States government sponsored enterprise.
- 7. Negotiable certificates of deposit or other evidence of deposit, with a remaining maturity of three years or less, issued by a nationally or State-chartered bank, a Federal or State savings and loan association or a State-licensed branch of a foreign bank. For obligations with a maturity of one year or less, the debt obligations of the issuing institution or its parent must be rated in the top short-term rating category by at least two nationally recognized statistical ratings organizations. For obligations with a maturity more than one year, the senior debt obligations of the issuing institution or its parent must be rated at least "A" or its equivalent by at least two nationally recognized statistical ratings organizations.
- **8.** Bills of exchange or time drafts drawn on and accepted by a commercial bank, otherwise known as bankers' acceptances, if the bankers' acceptances do not exceed 180 days maturity and the accepting bank is rated in the top short-term category by at least two nationally recognized statistical ratings organizations.
- **9.** Commercial paper issued by corporations or other business entities organized in accordance with Federal or State law, with a maturity not to exceed 270 days, if the paper is rated in the top short-term category by at least two nationally recognized statistical ratings organizations.
- **10.** Shares of an investment company registered under the Investment Company Act of 1940, whose shares are registered under the Securities Act of 1933 and, if all the following conditions are met:
  - The investments of the company are the authorized investments listed above.
  - The investment company is managed in accordance with 17 CFR 270.2a-7 (related to money market funds).
  - The investment company is rated in the highest category by a nationally recognized rating agency.

- **11.** Savings or demand deposits placed in accordance with the following conditions:
  - The money is initially deposited and invested through a federally insured institution having a place of business in this Commonwealth, which is selected by the public corporation or municipal authority.
  - The selected institution arranges for the redeposit of the money in savings or demand deposits in one or more financial institutions insured by the Federal Deposit Insurance Corporation, for the account of the public corporation or municipal authority.
  - The full amount of principal and any accrued interest of each such deposit is insured by the Federal Deposit Insurance Corporation.
  - On the same date that the money is redeposited pursuant to above, the selected institution receives an amount of deposits from customers of other financial institutions equal to or greater than the amount of money initially invested through the selected institution by the public corporation or municipal authority.

As of June 30, 2023, the District had the following investments:

Investment	Maturities	Fair Value
PLGIT	:	\$ 288,602
PSDLAF	:	\$ 8,305,260
TOTAL	·	\$ 8,593,862

#### Interest Rate Risk

The District has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

## Credit Risk

The District has no investment policy that would limit its investment choices to certain credit ratings. As of June 30, 2023, the District did not have any investment subject to credit risk. The Districts investments in the PA School District Liquid Asset Fund on the PA Local Government Investment Trust was rated AAAm by Standard & Poor's.

#### Concentration of Credit Risk

The District places no limit on the amount the District may invest in any one issuer. As of June 30, 2023, the District did not have any investments subject to concentration of credit risk.

#### Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. The District has no investments subject to custodial credit risk.

#### Reconciliation to Financial Statements

Less: Deposits in Investment Pool Considered Cash Equivalents  Deposits in Money Market Funds Considered Cash Equivalents	•	8,593,862 (8,593,862)
Total Investments Per Financial Statements	\$	-

#### Fair Value Reporting

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

## Property Taxes

Property taxes are levied on July 1, on the assessed value listed, as of that date, for all taxable real property located in the District. Assessed values are established by the County Board of Assessments. All taxable real property was assessed at \$703,002,900. In accordance with Act 1 of 2006, the District received \$1,194,665 in property tax reduction funds for the 2022-23 fiscal year. The tax rate for the year was \$2.40684 per \$100 of assessed valuation or 24.0684 mills for Lehigh County and \$6.88022 per \$100 of assessed valuation or 68.8022 mills for Northampton County. The District has decided to equalize the millage between the two counties.

July 1	-	Full year tax assessed for current year.
July 1 - August 31	-	Discount period during which a 2% discount is allowed.
September 1 - October 31	-	Face amount of tax is due.
November 1 - January 15	-	A 10% penalty is added to all payments.
January 15	-	All unpaid taxes become delinquent and are turned over to the County Tax Claim Bureau for Collection.
April 30	-	All unpaid Northampton County taxes become delinquent and are turned over to Portnoff Law Associates, Ltd.

The School District, in accordance with GAAP, recognized the delinquent and unpaid taxes receivable reduced by an allowance for uncollectible taxes was determined by the administration. A portion of the net amount estimated to be collectible, which was measurable and available within 60 days, was recognized as revenue and the balance deferred in the financial statements.

#### Receivables

Receivables, as of year end, for the government's individual major funds and non-major and fiduciary funds, in the aggregate, including the applicable allowances for uncollectible accounts, are:

	 SENERAL FUND	SE	OOD RVICE UND	N	NON- MAJOR FUNDS	UCIARY UNDS		TOTAL
RECEIVABLES:								
Interest	\$ -	\$	-	\$	-	\$ -	\$	-
Taxes	1,649,573		-		-	-		1,649,573
Accounts	28,853		751		-	18		29,622

Depreciation - unallocated		1,928,093
TOTAL DEPRECIATION FOR GOVERNMENTAL ACTIVITIES	\$	2,280,973

The district's governmental activities did not dispose of any equipment during the year. The business-type activities disposed of \$30,427 of equipment during the year, with accumulated depreciation of \$27,384 showing a loss on disposition of \$3,043.

#### **Commitments**

#### **Encumbrances**

Any encumbrances outstanding at year-end do not represent GAAP expenditures or liabilities but represent budgetary accounting controls. The General Fund Budget is maintained on the modified accrual basis of accounting, except that budgetary basis expenditures include any encumbrances issued for goods or services not received at year-end and not terminated.

The actual results of operations are presented in accordance with GAAP and the District's accounting policies do not recognize encumbrances as expenditures until the period in which the goods or services are actually received and a liability is incurred. If budgetary encumbrances exist at year-end, they are included in the fund financial statements to reflect actual revenues and expenditures on a budgetary basis consistent with the District's legally adopted budget.

#### Long-Term Construction Commitments

The District had the following Long-Term Construction Commitments as of June 30, 2023.

	NTRACT MOUNT	 PENDED 30/2023	STANDING MITMENTS
Softball & Baseball Field Renovation ELA Group	\$ 84,500	\$ 32,712	\$ 51,788
TOTAL	\$ 84,500	\$ 32,712	\$ 51,788

#### Short-Term Debt

Interfund balances between funds represent temporary loans recorded at year end subsequent to a final allocation of expenses. The balances generally are paid shortly after year end. Transfers represent funds set aside for the anticipation of future capital needs.

#### Interfund receivables and payables

The following interfund receivables and payables were in existence on June 30, 2023 were:

	 ERFUND EIVABLES	 TERFUND AYABLES
General Fund Enterprise (Food Service) Fund Custodial (Activity) Funds	\$ 7,423 107,673 -	\$ 107,673 7,423

TOTAL OUTSTANDING	\$	362,864	\$	57,034

#### General Obligation Bonds – Series of 2012

On December 20, 2012, the District issued the General Obligation Bonds - Series of 2012. The purpose of this issue is to (1) advance refund \$1,780,000 in principal amount of the GOB Series A of 2009 (2) and to advance refund \$7,170,000 in principal amount of the GOB Series of 2010 (3) and to pay costs of issuance.

In accordance with the Local Governmental Debt Act, a sinking fund has been established with the paying agent. The bonds mature from March 1, 2013 to March 1, 2024. Interest rates range from 0.55% to 2.25% with a total indebtedness of \$1,567,021.

On June 27, 2018, the District refunded a portion of the Series of 2012 (\$2,065,000), with interest rates at 2.0% with new debt in the amount of \$2,085,000 with a fixed interest rates that range from 1.8% to 2.5%.

On August 19, 2020 the District refunded a portion of the Series of 2012 (\$1,640,000) and fully refunded the GOB Series of 2015 (\$4,580,000) with interest rates that ranged from 2.0% to 3.0% with new debt in the amount of (\$4,695,000) with a fixed interest rates that range from 0.65% to 2.0%.

On October 19, 2022 the District refunded the General Obligation Bonds Series 2012 with a portion of the issuance of the General Obligation Notes Series of 2022. Below is the economic loss calculation of the following refunding.

## **General Obligation Notes – Series of A 2018**

On June 27, 2018, the District issued \$11,310,000 of General Obligation Notes - Series A of 2018. The proceeds of the bonds will be used to (1) various capital improvement projects including energy savings, roofing, and other improvements to various public-school buildings and (2) to pay the related costs and expenses, including the cost of issuing the notes. The bonds mature from March 1, 2024 to March 1, 2029. Interest rates range from 2.50% to 3.00% with a total indebtedness of \$3,717,627.

On October 19, 2022, the District issued \$8,900,000 of General Obligation Bonds - Series of 2022. The purpose of this issuance was to facilitate the restructuring of a portion of the GON Series A of 2018, a portion of GON Series B of 2018, and a portion of GON Series of 2020, with principal amounts refunded as follows: \$6,510,000, \$575,000, and \$1,620,000, respectively. Below is the economic loss calculation of the following refunding's.

#### **General Obligation Notes – Series of B 2018**

On June 27, 2018, the District issued \$2,085,000 of General Obligation Notes - Series B of 2018. The proceeds of the bonds will be used to (1) refund a portion of the GOB Series 2012 currently outstanding in the principal amount of \$8,625,000, of which \$2,065,000 shall be redeemed on August 1, 2018, and (2) to pay the related costs of issuing the debt.

In accordance with the Local Governmental Debt Act, a sinking fund has been established with the paying agent. The bonds mature from March 1, 2019 to March 1, 2024. Interest rates range from 1.80% to 2.50% with a total indebtedness of \$324,050.

On October 19, 2022, the District issued \$8,900,000 of General Obligation Bonds - Series of 2022. The purpose of this issuance was to facilitate the restructuring of a portion of the GON Series A of 2018, a portion of GON Series B of 2018, and a portion of GON Series of 2020, with principal amounts refunded as follows: \$6,510,000, \$575,000, and \$1,620,000, respectively. The economic gain or loss calculation is shown under the GON Series of A 2018.

The remaining debt service requirements after partial refunding as of June 30, 2023 are:

#### **General Obligation Notes - Series of 2020**

On August 19, 2020 the District issued \$4,695,000 of General Obligation Notes - Series of 2020. The proceeds of the notes will be used to refund a portion of the GOB Series 2012 currently outstanding in the principal amount of \$4,580,000, of which \$1,640,000 shall be refunded. Proceeds of the Notes also will be used for the refunding of all of the District's outstanding GOB Series of 2015 and to pay related costs of the issuing the debt.

In accordance with the Local Governmental Debt Act, a sinking fund was established with the paying agent. The bonds are scheduled to mature from March 1, 2020 to March 1, 2030. Interest rates range from 0.65% to 2.00% with a total interest indebtedness of \$850,251.

On October 19, 2022, the District issued \$8,900,000 of General Obligation Bonds - Series of 2022. The purpose of this issuance was to facilitate the restructuring of a portion of the GON Series A of 2018, a portion of GON Series B of 2018, and a portion of GON Series of 2020, with principal amounts refunded as follows: \$6,510,000, \$575,000, and \$1,620,000, respectively. The economic gain or loss calculation is shown under the GON Series of A 2018.

#### General Obligation Notes - Series of 2022

On October 19, 2022, the District issued \$3,465,000 of General Obligation Notes - Series of 2022. The purpose of this issuance was to facilitate the restructuring of a portion of the GOB Series of 2020 in the amount of \$1,335,000. The remaining proceeds were used to fund various capital improvements to School District facilities.

In accordance with the Local Governmental Debt Act, a sinking fund was established with the paying agent. The notes are scheduled to mature from March 1, 2023 to March 1, 2037. Interest rate is fixed at 4.00% with a total interest indebtedness of \$1,832,220.

TOTAL OUTSTANDING	<u>\$ 4,947,792</u>	

#### Lease Rental Debt

The Lehigh Career and Technical Institute (LCTI), with authority of the nine participating school districts, have agreed to borrow \$45,865,000 to refinance the State Public School Building/Authority, Lehigh Career and Technical Institute Revenue Bonds Series of 2001 and 2003. The participating districts, such as Northern Lehigh School District, will be required to pay their proportionate shares of the incurred debt under the Articles of Agreement in subsequent years as "Capital Costs" under Sections 4.1 and 4.2 of the Articles. The District's proportionate share is based on each district's percentage of their respective market value to the total market value of all participating districts.

Specifically, Lehigh Career and Technical Institute is authorized to issue up to \$53,000,000 of long-term bonds through the State Public School Building Authority or other appropriate financing authority. This issue is to refund LCTI revenue bonds, Series of 2001 and 2003 which were originally issued to improve the Institute's facilities.

The LCTI financing translates into an ongoing obligation of the participating districts for credit purposes; however, for purposes of the Local Governmental Unit Debt Act, this borrowing is not considered general obligation debt of the school districts; therefore, the future obligations of debt service are not recorded as a liability on Northern Lehigh's financial statements.

## Combined Long Term Debt

The combined general debt obligations for subsequent years are:

#### Compensated Absences

#### Sick-Pay

Under the District's various bargaining agreements and plans, professional and eligible support personnel accumulate unused sick days from year to year based on their classification. These accumulated sick days are non-vesting during the employee's tenure. Upon retirement, the eligible employees are entitled to the following remuneration:

#### Northern Lehigh Education Assn. Employees

\$40 per day for those days accumulated from 0-50, \$50 per day for those days accumulated from 51-100, and \$60 per day for those days accumulated from 101-150, and \$70 per day for those days accumulated from 151-200, and \$80 per day for those days accumulated over 200.

#### Custodial/Maintenance

\$10 per day for those days accumulated as of June 30, 1992, and \$18 per day for those days accumulated after July 1, 1992.

#### Administrators

\$50 per day for those day accumulated from 0-50, \$60 per day for those days accumulated from 51-100, \$70 per day for those days accumulated from 101-150, \$80 per day for those days accumulated from 151-200, and \$90 per day for those days accumulated over 200.

#### Support

\$35 per day for those days accumulated between 0-100, \$50 per day for those days accumulated after 101-200, and \$65 per day for those days accumulated over 200.

The District maintains a record of each employee's accumulated sick days, and has valued the accumulated sick days that are earned by employees who are eligible to retire. As a result, a liability of \$543,254 including fica tax (net of reimbursement) has been established as a long-term liability in the governmental activities column of the government-wide statement of net position. A liability of \$34,861 including fica tax (net of reimbursement), has been recorded in the General Fund for the portion of sick days earned that will use currently available financial resources. This amount is shown as a current liability in the governmental activities column of the government-wide statement of net position. A liability of \$5,009 including fica tax (net of reimbursement) has been established as a long-term liability in the business-type activities column of the government-wide financial statements and as a liability in the Food Service Fund.

#### Vacation Leave

The District maintains records of each employee's accumulated vacation days, and has valued the accumulated vacation days as of June 30, 2023. As a result, a liability of \$109,668, including fica tax and retirement (net of reimbursement) has been established as a long-term liability in the governmental activities column of the government-wide statement of net position. In addition, a liability of \$57,621, including fica tax and retirement (net of reimbursement) that will use currently available financial resources has been\_recorded in the General Fund and as a current liability in the governmental activities column of the government-wide statement of net position.

#### Defined Benefit Pension Plan

Public School Employees' Retirement System (PSERS) Pension Plan

#### Summary of Significant Accounting Policies

#### Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS' fiduciary net position have been determined on the same basis as they are reported by

PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### General Information about the Pension Plan

#### Plan Description

PSERS is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at <a href="https://www.psers.pa.gov">www.psers.pa.gov</a>.

#### **Benefits Provided**

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of 3 years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service.

Act 5 of 2017 (Act 5) introduced a hybrid benefit with two membership classes and a separate defined contribution plan for individuals who become new members on or after July 1, 2019. Act 5 created two new hybrid membership classes, Membership Class T-G (Class T-G) and Membership Class T-H (Class T-H) and the separate defined contribution membership class, Membership Class DC (Class DC). To qualify for normal retirement, Class T-G and Class T-H members must work until age 67 with a minimum of 3 years of credited service. Class T-G may also qualify for normal retirement by attaining a total combination of age and service that is equal to or greater than 97 with a minimum of 35 years of credited service.

Benefits are generally between to 1% to 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

#### **Contributions**

#### Member Contributions:

The contribution rates based on qualified member compensation for virtually all members are presented below:

Member Contribution Rates

T-H	4.50%	+/-0.75%	1.50%	7.50%		

#### **Employer Contributions:**

The school districts' contractually required contribution rate for the fiscal year ended June 30, 2023 was 34.31% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the District were \$5,001,757 for the year ended June 30, 2023.

## Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2023, the District reported a liability of \$42,442,738 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2021 to June 30, 2022.

The District's proportion of the net pension liability was calculated utilizing the employer's one-year reported contributions as it relates to the total one-year reported contributions. At June 30, 2023, the District's proportion was 0.0964 percent, which was an increase of 0.0007 percent from its proportion measured as of June 30, 2022.

For the year ended June 30, 2023, the District recognized pension expense of \$3,488,212. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Sources	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between Proportionate Share vs Actual				
Paid Separately Finance Liabilities	\$	-	\$	3,996
Changes in Assumptions		1,280,000		-
Net difference between projected and actual				
contributions made		-		55,636
Net difference between projected and actual				
earnings on pension plan investments		-		727,000
Difference between expected and actual				
experience		-		352,000
Changes in proportion of the Net Pension Liability				
Changes in proportion of the Net Pension Liability		123,000		-
District contributions subsequent to the				
measurement date		5,001,757		<u>-</u>
Total	\$	6,404,757	\$	1,138,632

\$5,001,757 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	<u>Amount</u>
2023	\$ 76,000
2024	250,371
2025	(1,054,991)
2026	1,002,145
Thereafter	 (9,157)
Total	\$ 264,368

#### Changes in Actuarial Assumptions

The Total Pension Liability as of June 30, 2022 was determined by rolling forward the System's Total Pension Liability as of June 30, 2021 to June 30, 2022 using the following actuarial assumptions, applied to all periods included in the measurement:

- Valuation Date June 30, 2021
- Actuarial cost method Entry Age Normal level % of pay.

- Investment return 7.00%, includes inflation at 2.75%.
- Salary growth Effective average of 4.50%, comprised of inflation of 2.50% and 2.00% for real wage growth and for merit or seniority increases.
- Mortality rates were based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree
  Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a
  modified version of the MP-2020 Improvement Scale.
- The discount rate used to measure the Total Pension Liability was 7.00% as of June 30, 2021 and as of June 30, 2022.
- Demographic and economic assumptions approved by the Board for use effective with the June 30, 2021 actuarial valuation:
  - Salary growth rate decreased from 5.00% to 4.50%.
  - Real wage growth and merit or seniority increases (components for salary growth) - decreased from 2.75% and 2.25% to 2.50% and 2.00%, respectively.
  - Mortality rates Previously based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale. Effective with the June 30, 2021 actuarial valuation, mortality rates are based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scale.

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study that was performed for the five year period ending June 30, 2020.

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

		Long-Term
	Target	<b>Expected Real</b>
Asset Class	Allocation	Rate of Return
Global public equity	28.0%	5.3%
Private Equity	12.0%	8.0%
Fixed Income	33.0%	2.3%
Commodities	9.0%	2.3%
Infrastructure/MLPs	9.0%	5.4%
Real estate	11.0%	4.6%
Absolute return	6.0%	3.5%
Cash	3.0%	0.5%
Leverage	-11.0%	0.5%
	100%	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2022.

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

# Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability, calculated using the discount rate of 7.00%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

	1% Decrease 6.00%		Current Disount Rate 7.00%		1% Increase 8.00%	
District's proportionate share of the net pension liability	\$	55,434,000	\$	42,858,000	\$	32,255,000

#### Pension Plan Fiduciary Net Position

Detailed information about PSERS' fiduciary net position is available in PSERS Annual Comprehensive Financial Report which can be found on the System's website at <a href="https://www.psers.pa.gov">www.psers.pa.gov</a>.

## State Funding

The Commonwealth of Pennsylvania generally reimburses the School District for 50%-60% of its retirement expense. This arrangement does not meet the criteria of a special funding situation in accordance with GASB standards. Therefore, the net pension liabilities and related pension expense represent 100% of the School District's share of these amounts. During the year ended June 30, 2023, the School District recognized revenue of \$3,025,556 as reimbursement from the State for its current year pension payments.

#### Payables to the Pension Plan

As of June 30, 2023, the School District had \$1,596,981 included in accrued wages liability, of which \$1,137,060 is for the contractually required contribution for the second quarter of 2023 and \$459,921 is related to the accrued payroll liability for wages incurred as of June 30, 2023.

#### Other Postemployment Benefits

<u>Public School Employees' Retirement System (PSERS) Multiple Employer OPEB Plan on Health Insurance Premium Assistance Program</u>

#### Summary of Significant Accounting Policies

#### Other Postemployment Benefits

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS' fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## General Information about the Health Insurance Premium Assistance Program

#### Health Insurance Premium Assistance Program

The System provides Premium Assistance which, is a governmental cost sharing, multiple-employer other postemployment benefit plan (OPEB) for all eligible retirees who qualify and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002 under the provisions of Act 9 of 2001, participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2022 there were no assumed future benefit increases to participating eligible retirees.

#### Premium Assistance Eligibility Criteria

Retirees of the System can participate in the Premium Assistance program if they satisfy the following criteria:

- Have 24 ½ or more years of service, or
- · Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age

For Class DC members to become eligible for premium assistance, they must satisfy the following criteria:

- Attain Medicare eligibility with 24 ½ or more eligibility points, or
- Have 15 or more eligibility points and terminated after age 67, and
- Have received all or part of their distributions

#### Pension Plan Description

PSERS is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at <a href="https://www.psers.pa.gov">www.psers.pa.gov</a>.

### Benefits Provided

Participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program.

### Contributions

### **Employer Contributions:**

The school districts' contractually required contribution rate for the fiscal year ended June 30, 2023 was 0.75% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the OPEB plan from the District were \$109,336 for the year ended June 30, 2023.

### OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2023, the District reported a liability of \$1,779,671 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2022, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the System's total OPEB liability as of June 30, 2021 to June 30, 2022. The District's proportion of the net OPEB liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2023, the District's proportion was 0.0968 percent, which was an increase of 0.0011 percent from its proportion measured as of June 30, 2022.

For the year ended June 30, 2023, the District recognized OPEB expense of \$55,866. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Sources	 ed Outflows esources	Deferred Inflows of Resources	
Differences between Proportionate Share vs Actual			
Paid Separately Finance Liabilities	\$ 108	\$	-
Changes in Assumptions	-		223,000
Net difference between projected and actual			
contributions made	-		923
Net difference between projected and actual			
investment earnings	5,000		-
Difference between expected and actual			
experience	6,000		-
Observation of the Net ODED Liebility			
Changes in proportion of the Net OPEB Liability	40,000		-
District contributions subsequent to the			
measurement date	 109,336		<u>-</u>
Total	\$ 160,444	\$	223,923

\$109,336 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:		<u>Amount</u>
2023	\$	(41,000)
2024		(13,134)
2025		(23,212)
2026		(46,116)
2027		(49,180)
Thereafter		(173)
Total	\$	(172,815)

### **Actuarial Assumptions**

The Total OPEB Liability as of June 30, 2022, was determined by rolling forward the System's Total OPEB Liability as of June 30, 2021 to June 30, 2022 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method Entry Age Normal level % of pay.
- Investment return 4.09% S&P 20 Year Municipal Bond Rate.
- Salary growth Effective average of 4.50%, comprised of inflation of 2.50% and 2.00% for real wage growth and for merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree
  Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a
  modified version of the MP-2020 Improvement Scale.
- Participation rate:
  - Eligible retirees will elect to participate Pre age 65 at 50%
  - Eligible retirees will elect to participate Post age 65 at 70%

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study that was performed for the five year the period ending June 30, 2020.

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2020 determined the employer contribution rate for fiscal year 2022.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.
- Participation rate: The actual data for retirees benefiting under the Plan as of June 30, 2021 was used in lieu of the 63% utilization assumption for eligible retirees.
- Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

Investments consist primarily of short-term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

OPEB - Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	100.0%	0.5%
	100%	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2022.

### **Discount Rate**

The discount rate used to measure the Total OPEB Liability was 4.09%. Under the plan's funding policy, contributions are structured for short term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short-term funding policy, the OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 4.09% which represents the S&P 20-year Municipal Bond Rate at June 30, 2022, was applied to all projected benefit payments to measure the total OPEB liability.

### Sensitivity of the System Net OPEB Liability to Change in Healthcare Cost Trend Rates

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual Premium Assistance. As of June 30, 2022, retirees Premium Assistance benefits are not subject to future healthcare cost increases. The annual Premium Assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200. As of June 30, 2022, 93,293 retirees were receiving the maximum amount allowed of \$1,200 per year. As of June 30, 2022, 582 members were receiving less than the maximum amount allowed of \$1,200 per year. The actual number of retirees receiving less than the \$1,200 per year cap is a small percentage of the total population and has a minimal impact on Healthcare Cost Trends as depicted below.

The following presents the System net OPEB liability for June 30, 2022, calculated using current Healthcare cost trends as well as what the System net OPEB liability would be if the health cost trends were 1-percentage point lower or 1-percentage point higher than the current rate:

	 1% Decrease	Trend Rate		1% Increase	
System net OPEB liability	\$ 1,782,000	\$	1,782,000	\$	1,782,000

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability, calculated using the discount rate of 4.09%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (3.09%) or 1-percentage-point higher (5.09%) than the current rate:

	19	% Decrease 3.09%	Current Disount Rate 4.09%		1% Increase 5.09%	
District's proportionate share of the net OPEB liability	\$	2,015,000	\$	1,782,000	\$	1,587,000

### OPEB Plan Fiduciary Net Position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at <a href="https://www.psers.pa.gov">www.psers.pa.gov</a>.

### Payables to the Multiple Employer OPEB Plan

As of June 30, 2023, the School District had \$34,707 included in accrued wages liability, of which \$24,712 is for the contractually required contribution for the second quarter of 2023 and \$9,995 is related to the accrued payroll liability for wages incurred as of June 30, 2023.

### Single Employer OPEB Plan

Plan Description – Northern Lehigh School District has one single-employer defined OPEB plan.

1. In accordance with the PA School Code of 1949, as amended, medical coverage is provided to eligible retirees and spouses with the retiree paying the full active premium rate for coverage until age 65. This benefit has an implicit rate subsidy based upon GASB Statement NO. 45, since the retiree pays the premium at the insurance carrier's global rate charge to the School District versus an age-adjusted rate, as defined by the GASB statements. The following table reflects the benefits provided:

Summary of Plan Provisions						
Group	Eligibility	Coverage And Premium Sharing	Duration			
I. ADMINISTRATORS	Age 55 and at least 10 full years of service with the District  or —  At least 10 full years with the District and 35 years of PSERS service.	<ul> <li>Coverage: Medical, Prescription Drug, and Dental.</li> <li>Premium Sharing: District will pay full premium less premium share determined by the Act 93 agreement for Member only and spouse may elect medical, prescription drug, and dental by paying the full premiums.</li> <li>If an active member becomes disabled, the member and spouse may elect coverage by paying the full premiums.</li> <li>Dependents: Spouse included.</li> </ul>	Member – benefits cease upon Medicare age.  Spouse – benefits cease upon the earlier of member Medicare age. Medicare age, and member death.			
II. ALL OTHER EMPLOYEES	Upon retirement	<ul> <li>Coverage: Medical, Prescription Drug, and Dental.</li> <li>Premium Sharing: Member and spouse may elect medical, prescription drug, and dental by paying the full premiums.</li> <li>If an active member becomes disabled, the member and spouse may elect coverage by paying the full premiums.</li> <li>Dependents: Spouse included.</li> </ul>	Same as I			

Notes: Act 110/43: All employees are eligible for this benefit upon retirement with 30 years of PSERS service or upon superannuation retirement

Act 110/43 Coverage and Premium Sharing: Retired employees are allowed to continue coverage for themselves and their dependents in the employer's group health plan until the retired employee reaches Medicare age. In order to obtain coverage, retired employees must provide payment equal to the premium determined for the purpose of COBRA.

### Employees Covered by Benefit Terms

At June 30, 2023, the following employees were covered by the benefit terms:

Active Participants	160
Vested Former Participants	0
Retired Participants	<u>15</u>
Total	175

### Total OPEB Liability

The School's total OPEB liability under this single employer plan of \$1,609,192, was measured as of June 30, 2023, and was determined by an actuarial valuation as of July 1, 2021.

### Actuarial Assumptions and Other Inputs

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the benefits and the annual required contributions of the employer are subject to continual revision, actual results are compared to past expectations and new estimates are made about the future. The required schedule of funding progress, presented as required supplementary information, provides multiyear trend information that shows whether the actuarial value of plan Net Position is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

### Actuarial Methods and Assumptions

Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the district and the plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions were as follows:

State-mandated
Healthcare
<u>Benefit</u>

### Note 6 - Risk Management

The District is subject to risk of loss from employee acts, property damage, personal injury auto accidents, theft, etc. The District covers those risks through the purchase of commercial insurance. The District's Workmen's compensation policy is a retrospectively rated policy; the final total premium is based on the actual payroll for the policy year and is determined by the insurance company. Any settlements received by the District or its employees did not exceed insurance coverage in any of the last three years.

### Note 7 - Fund Balance Allocations

### Nonspendable Fund Balance

The General Fund had \$469,825, in nonspendable fund balance at June 30, 2023, comprised, of inventories on hand at year-end, and prepaid expenditures.

### Restricted Fund Balance

The Capital Reserve Fund's fund balance of \$219,516 at year-end is restricted because of enabling legislation under the Municipal Code in Pennsylvania. Section 1432 of this Code restricts the use of resources for limited purposes. The General Fund has \$170,122 restricted for contributions not yet spent.

### Committed Fund Balance

The School Board has chosen to commit \$509,128 for future health insurance rate increases, and \$1,854,115 for future retirement rate increases.

### Assigned Fund Balance

The General Fund has \$1,116,716, assigned for balancing the 2023-24 budget, \$3,250,100 for replacement of equipment, \$2,786,469 for future maintenance, \$1,575,311 for technology issues, \$53,732 pertaining to the District's concessions, and \$37,972 for Elementary Student Activity Funds.

### **Note 8 - Net Asset Restrictions**

### Net Investment in Capital Assets

The components of this restriction are total capital assets of \$46,362,050, \$2,006,508 in unspent proceeds with related debt of \$21,950,793, which includes unamortized bond discounts, premiums. The business-type activities column reflects \$743,585 invested in capital assets with no related debt. In addition, \$219,516 has been restricted for future capital projects in the governmental activities.

### Note 9 - Contingencies

### Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and a condition specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund, or other applicable funds. However, in the opinion of management any such disallowed claims will not have a material adverse effect on the overall financial position of the School District as of June 30, 2023.

### Litigation

In accordance with the solicitor's legal letter, there is no pending litigation or contingent liabilities as of June 30, 2023, which would materially affect the financial position of the District.

### **Note 10 - New Accounting Pronouncements**

The Governmental Accounting Standards Board (GASB) has issued the following standards, which have not yet been implemented:

• Statement No. 100, Accounting Changes and Error Corrections - an amendment of GASB Statement No. 62 - The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. Effective Date: for fiscal years beginning after June 15, 2023.

Statement No. 101, *Compensated Absences* - The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. Effective Date: for fiscal years beginning after December 15, 2023.

### Northern Lehigh School District Notes to Required Supplemental Information Fiscal Year Ended June 30, 2023

### **Public School Employees' Retirement System**

### Changes of Benefit Terms

None.

### Changes in Assumptions

The actuarially determined contributions, by PSERS, are calculated as of the June 30 preceding the fiscal year in which contributions are made. It does not include an adjustment made for the difference between projected vs actual contributions or separately financed liabilities. The following methods and assumptions were used to determine contribution rates reported:

- Valuation Date -- June 30, 2021
- Actuarial cost method Entry Age Normal level % of pay.
- Investment return 7.00% includes inflation at 2.75%.
- Salary growth Effective average of 4.50%, comprised of inflation of 2.50% and 2.00% for real wage growth and for merit or seniority increases.
- Mortality rates were based on a blend 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scale.
- The discount rate used to measure the Total Pension Liability was 7.0% as of June 30, 2021 and as of June 30.2022.
- Demographic and economic assumptions approved by the Board for use effective with the June 30, 2021 actuarial valuation:
  - Salary growth rate decreased from 5.00% to 4.50%.
  - Real wage growth and merit or seniority increases (components for salary growth) decreased from 2.75% and 2.25% to 2.50% and 2.00%, respectively.
  - Mortality rates previously based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale. Effective with the June 30, 2021 actuarial valuation, mortality rates are based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scale.

### Proportionate Share of the Net Pension Liability

The amount reported as the District's proportionate share of the net pension liability (asset) does not include the adjustment for the difference between projected vs actual contributions made and the adjustment for the difference between proportionate share vs actual paid separately financed liabilities.

### Other Postemployment Benefits – Teachers Health Insurance Assistance

### Changes of Benefit Terms

None.

### Changes in Assumptions

The discount rate used to measure the Total OPEB liability decreased from 2.18% as of June 30, 2021 to 4.09% as of June 30, 2022.

## Northern Lehigh School District Notes to Required Supplemental Information Fiscal Year Ended June 30, 2023

### Methods and Assumptions Used in Calculations of Actuarially Determined Contributions

The actuarially determined contributions, by PSERS, are calculated as of the June 30 preceding the fiscal year in which contributions are made. It does not include an adjustment made for the difference between projected vs actual contributions or separately financed liabilities. The following methods and assumptions were used to determine contribution rates reported:

- Investment return 4.09% S&P 20 Year Municipal Bond Rate.
- Salary increases Effective average of 4.5%, which reflects an allowance for inflation of 2.50%, and 2.00% for real wage growth and merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSER'S experience and projected using a modified version of the MP-2020 Improvement Scale.
- Participation rate:
  - Eligible retirees will elect to participate Pre age 65 at 50%
  - Eligible retirees will elect to participate Post age 65 at 70%

### The Following Assumptions Were Used to Determine the Contribution Rate:

- The results of the actuarial valuation as of June 30, 2020 determined the employer contribution rate for fiscal year 2022.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.
- Participation rate: 63% of eligible retirees are assumed to elect premium assistance.
- Mortality Tables for Males and Females, adjusted to reflect PSER'S experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

### Proportionate Share of the Net OPEB Liability

The amount reported as the District's proportionate share of the net OPEB liability (asset) does not include the adjustment for the difference between projected vs actual contributions made and the adjustment for the difference between proportionate share vs actual paid separately financed liabilities.

### Other Postemployment Benefits – Single Employer Healthcare Plan

### Changes of Benefit Terms

No changes in benefit terms.

### Changes in Assumptions

The discount rate changed from 2.28% to 4.06%. The trend assumption was updated. Assumptions for salary, mortality, withdrawal and retirement were updated based on new PSERS assumptions.

### Methods and Assumptions Used in Calculations of Actuarially Determined Contributions

- Actuarial Cost Method Entry Age Normal
- Salary Increases 3.50% to 6.75%

### Northern Lehigh School District Notes to Required Supplemental Information Fiscal Year Ended June 30, 2023

- Healthcare cost trend rate 6.5% in 2022, 6.0% in 2023 and 5.0% in 2024-25. Rates gradually decrease from 5.4% in 2026 to 3.9% in 2075 based on the Society of Actuaries Long-Run Medical Cost Trend Model.
- Asset Valuation Method Pay as you go basis.
- Discount Rate The rate of 4.06% is based on S&P Municipal Bond 20-year high grade rate index at July 1, 2022.

## Northern Lehigh School District Notes to the Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2023

#### Note 1 - Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of Northern Lehigh School District under programs of the federal government for the year ended June 30, 2023. The information in this Schedule is presented in accordance with the requirements of the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Northern Lehigh School District, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Northern Lehigh School District.

### **Note 2 - Significant Accounting Policies**

The accompanying Schedule of Expenditures of Federal Awards is presented on the modified accrual basis of accounting for all federal awards charged to governmental funds and on the accrual basis of accounting for all federal awards charged to proprietary funds, as contemplated by generally accepted accounting principles, generally accepted in the United States of America.

### Note 3 - Organization and Scope

The District recognized 5.5% of its total general fund revenue in federal awards, and 50.0% of its total enterprise fund revenue.

#### Note 4 - Indirect Costs

The District did not charge any indirect costs to any of their federal grants and programs during this fiscal year. As such, the District did not use the 10% de minimis cost rate.

### **Note 5 - Program Disclosure - Footnotes**

- 1. The federal awards passed through the Carbon-Lehigh Intermediate Unit, under the U.S. Department of Education heading, are part of a consortium of participating school districts. In accordance with directions from the Commonwealth of Pennsylvania, these awards are reported on the basic financial statements as local source revenue.
- 2. The Federal Grants were passed through the following entities in the totals below:

		<u>Total</u>
Passed through	<b>Total Awards</b>	<b>Expenditures</b>
PA Department of Education	5,713,214	2,621,712
Carbon-Lehigh I.U.	689,884	386,155
PA Department of Public Welfare	N/A	18,375
PA Department of Agriculture	N/A	99,581
Totals	\$ 6,403,098	\$ 3,125,823

**3.** The District received non-monetary assistance from the U.S. Department of Agriculture of \$92,116 in the form of commodities. These commodities are valued at U.S.D.A.'s approximate costs. During the 2022-23 fiscal year, the District used \$99,581 in commodities and established a year-end inventory of \$9,741 at June 30, 2023.

## Northern Lehigh School District Notes to the Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2023

**4.** The amount of ESSER II expenditures reported on the Schedule of Expenditures of Federal Awards. For the 2020-2021 fiscal year, was overstated by \$25,790. The opening accrual on 7/1/2022 has been reduced by \$25,790 to account for the changes needed on the 2020-2021 fiscal year's Schedule of Expenditures of Federal Awards.

FINANCIAL STATEMENT RECONCILIATION					
General Fund Federal Source Revenues	\$1,792,222				
Federal Grants in Local Sources	386,155				
Food Service Fund Federal Revenue	947,446				
Total Federal Revenue, per financial statements	3,125,823				
Less - Medical Access Reimbursement	-				
Less - Transportation Access Reimbursement

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of School Directors Northern Lehigh School District 1201 Shadow Oaks Lane Slatington, PA 18080-1299

We have audited, in accordance with the auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparison statement of the general fund of the Northern Lehigh School District, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise Northern Lehigh School District's basic financial statements, and have issued our report thereon dated November 20, 2023.

### Report On Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Northern Lehigh School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Northern Lehigh School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Northern Lehigh School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Report On Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Northern Lehigh School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

Northampton, Pennsylvania

Horna i assocites P.C.

### INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of School Directors Northern Lehigh School District 1201 Shadow Oaks Lane Slatington, PA 18080-1299

### Report on Compliance for Each Major Federal Program

### Opinion on Each Major Federal Program

We have audited Northern Lehigh School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Northern Lehigh School District's major federal programs for the year ended June 30, 2023. Northern Lehigh School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Northern Lehigh School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

### Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Northern Lehigh School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Northern Lehigh School District's compliance with the compliance requirements referred to above.

#### Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Northern Lehigh School District's federal programs.

### Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Northern Lehigh School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Northern Lehigh School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design
  and perform audit procedures responsive to those risks. Such procedures include examining, on a
  test basis, evidence regarding the Northern Lehigh School District's compliance with the
  compliance requirements referred to above and performing such other procedures as we
  considered necessary in the circumstances.
- Obtain an understanding of the Northern Lehigh School District's internal control over compliance
  relevant to the audit in order to design audit procedures that are appropriate in the circumstances
  and to test and report on internal control over compliance in accordance with the Uniform
  Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Northern
  Lehigh School District's internal control over compliance. Accordingly, no such opinion is
  expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that have not been identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

### **Northern Lehigh School District**

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

Northampton, Pennsylvania

Homan: Cessouth, P.C.
